

Enjoy your x39 stem cell activation patches!

Wear 12 hours **ON** to activate and 12 hours **OFF** to repair. Re-apply a new patch daily. Patches can be worn on an area of concern or one of the two designated locations as shown. More than one patch can be applied if desired.

This Stem Cell Activation Patch is made out of organic amino acid crystals that when applied to your skin is activated by its heat which is a form of infrared light. This reflects back a light wave that elevates GHK-Cu Copper Peptide which is proven to **ACTIVATE** your stem cells, **PRODUCE** more stem cells, and **RESET** your stem cells to a younger healthier state, much like the sun activates Vitamin D in your body.

When you put activated younger stem cells on old tissue, you turn that tissue young again!

By age 35 we have lost 50% of our stem cell activity. By age 65 we have lost almost all our stem cell activity. When we activate our body with these younger pluripotent stem cells, they have the unique ability to turn into whatever stem cell the body needs for repair.

Some people experience results within 1-7 days. Most experience results within 28-30 days. Results will vary! The new stem cells may be regenerating an internal organ first before repairing something you feel. Know that within 24 hours the stem cell activation patch resets 3000-4000 genes to a younger healthier state! Deep healing occurs at approximately 3 months.

People notice: better sleep, more joy, youthful energy, mental clarity, pain & inflammation reduction, soft skin, wrinkle reduction, hair growth, wound healing, enhanced sports performance, faster recovery, and reversed cellular aging.

90 Day Money Back Guarantee for Customer's Initial Order!
30 Day Money Back Guarantee for Wholesale Distributor Pricing!
