It is: add your name: how are you? I remember u from : where you met the person: and I wanted to share something really exciting that I recently discovered.

I found light based frequency stem cell activation patches 9 months ago. They have been life changing for me:

I am recovering from breast cancer which wiped out my immune system: The first 2 days on the patch I had the taste of metal coming out of my mouth : “the chemo”: day 5 my hands and neck got so soft: “increased the collagen”: day 10: I had joy again like a young teenager, The PTSD from a second reoccurrence went away! I knew I was living! Now 9 months later my hair is longer & darker than ever before! Crazy Cool! ( Add Your Testimonial Here)

I will check in with you next week

### **# 3: The Follow Up Script Template: Send This Out When You Are Mailing Or Giving The Actual Patching Gift**

The good news is the stem cell activation patch resets 3,000-4,000 genes to a younger healthier state. 50 % of the people feel this within the first 1-7 days, but it takes the other 50 % of the people more time to feel: This is because your stem cells may be regenerating an internal organ first before it goes to something you feel:)That is why there is a 30 Day Money Back Guarantee For Business Partners & A 90 Day Money Back Guarantee For Customers.
